Dr. Brannan, Head of Trustees, Promises Unprejudiced and Fair Treatment to Visitor.

Two officers of the Public Health and Marine Hospital Service are on their way here to begin the government examination into the antituberculosis cultures of Dr. Friederick Franz Friedmann. Dr. Friedmann said to-day that he did not know what the government experts would require of him. He therefore postponed the clinic he had intended holding to-day and is ready to hold clinic to-morrow in the presence of the goverament agents or spend the day with them going over the history of his cases and of his discovery of the cure from the blood of a diseased furtle which had partly recovered. The Government and Dr. Friedmann are alike in saying that the test shall be made as fraukly and fairly as possible.
